PROFILE SUMMARY

A motivated Computer Science undergraduate (KTU) with a strong foundation in Data Structures and Algorithms and hands-on experience in full-stack web development using the MERN stack and Express.js. Built and deployed multiple full-stack projects through a project-based learning approach, and currently serve as Chief FOSS Ambassador, leading team initiatives and club activities. Seeking a software engineering internship to apply technical and problem-solving skills in a real-world environment.

SKILLS

Hard Skills: JavaScript | Python | Embedded C | React | Node.js | Express.js | MongoDB | SQL | REST APIs | Docker | Git/GitHub

Soft Skills: Team Leadership | Communication | Problem Solving | Time Management | Adaptability | Attention to Detail

PROJECTS

E-Commerce Platform with Personalized Product Recommendations *React, Node.js, Express.js, MongoDB, Stripe, Docker*

- Developed and deployed a full-stack MERN e-commerce platform featuring authentication, shopping cart, wishlist, order management, reviews, and an admin dashboard.
- Implemented JWT-based authentication, coupon management, product recommendations, Stripe payment integration, and email notifications.
- Documented APIs using Swagger, tested backend services with Jest, and deployed using Render, Vercel, Docker, and MongoDB Atlas.

Automatic Air Quality Monitoring and Ventilation System (IoT) *NodeMCU, MQ-135 Gas Sensor, Embedded C*

- Developed an IoT system using NodeMCU and MQ-135 gas sensors for real-time air quality monitoring.
- Implemented digital-value-based logic to automate ventilation control.
- Led team development and contributed to project documentation using LaTeX.

LEADERSHIP & RESPONSIBILITIES

Chief FOSS Ambassador *Current*

Vice Chair — FOSS Club *3rd Year*

- Contributed to the planning and execution of club initiatives.

Team Lead — Mini Project (IoT Air Quality Monitoring System)

- Led a team to design and develop an IoT-based air quality monitoring and ventilation system.
- Managed task distribution and coordination, ensuring timely completion of the project.
- Contributed to project documentation and report preparation using LaTeX.

EDUCATION

Bachelor of Technology in Computer Science *2023 – Present*

College of Engineering Poonjar, APJ Abdul Kalam Technological University (KTU)

CGPA: 7.05
